

World Program

Welcome to the World Program at Vientiane College. This three - stage program for teenagers focuses on using English for meaningful communication. Participation in all activities is the key to success. We know that students sometimes get things wrong but we also understand that trying, even when you are not sure, is the most important thing.

The course materials ('World English' and 'Impact') feature authentic content from National Geographic and TED talks. Engaging with these will help you to expand your knowledge of the world while building your reading, writing, listening and speaking skills.

We also promote development of the critical thinking and study skills you need in a rapidly changing world.

In order to maximize success, it is essential that you attend class and if you are going to be absent we appreciate a phone call from your parents.

You also need to come properly equipped with:

- the course book
- a notebook
- a folder
- pens and pencils

Regularly reviewing vocabulary and reading at home are critical in making progress in learning English. You also need to complete any homework set by the teacher.

We know learning happens in different ways for different people; if you would like to talk to us about your studies, we have expert staff on hand to help. Contact your teacher or make an appointment.

Your opinions and comments matter - whether it's good news or bad news, we want to hear from you. Give us your feedback!
